Topical Issue on the
JAPAN – USA SEMINAR ON TWO-PHASE FLOW DYNAMICS
July 5–11, 1992, Berkeley, California, USA
Edited by V.E. Schrock and T. Sakaguchi

Preface, *R.T. Lahey, Jr.* ix

Foreword, *V.E. Schrock and T. Sakaguchi* 1

Japanese papers

Measurement of turbulent diffusivity of both gas and liquid phases in quasi-2D two-phase flow, *Y. Sato, M. Sadatomi and A. Kawahara* 3

Characteristics and behavior of the interfacial wave on the liquid film in a vertically upward air–water two-phase annular flow, *K. Ohba and K. Nagae* 17

Two-phase flow in an annulus with a rotating inner cylinder (flow pattern in bubbly flow region), *Y. Shiomi, H. Kutsuna, K. Akagawa and M. Ozawa* 27

Characteristics of two-phase condensing flow by visualization using computed image processing, *S. Toda and Y. Hori* 35

Heat transfer between fluid with free surface and melted solid wall, *S. Toda, Y. Katsumura, H. Hashizume and M. Okuyama* 47

Characteristics of gas–liquid two-phase flow in a capillary tube, *T. Fukano and A. Kariyasaki* 59

Numerical analysis of bubble motion with the VOF method, *A. Tomiyama, I. Zun, A. Sou and T. Sakaguchi* 69

Heat and mass transfer enhancement in absorbing processes, *K. Hijikata and S.-K. Lee* 83

Water hammer phenomena in a one-component two-phase bubbly flow, *T. Fujii and K. Akagawa* 101

Geysering in parallel boiling channels, *M. Aritomi, J.H. Chiang and M. Mori* 111

Pressure wave phenomena in bubbly liquid, *Y. Matsumoto and M. Kameda* 123

Evaporation and condensation heat transfer with a noncondensable gas present, *M. Murase, Y. Kataoka and T. Fujii* 135

Prediction of turbulence suppression and turbulence modeling in bubbly two-phase flow, *I. Kataoka, A. Serizawa and D.C. Besnard* 145

USA papers

Impedance imaging relative to gas–liquid systems, *O.C. Jones, J.-T. Lin, L. Ovacik and H. Shu* 159

Phase distribution in complex geometry conduits, *R.T. Lahey, Jr., M. Lopez de Bertodano and O.C. Jones, Jr.* 177

The analysis of void waves in two-phase flow, *R.T. Lahey, Jr., J.-W. Park and D.A. Drew* 203
Two- and three-dimensional instabilities and rupture of thin liquid films falling on heated inclined plate, *S.W. Joo, S.H. Davis and S.G. Bankoff* 225
Buoyantly-driven two-phase countercurrent flow in liquid discharge from a vessel with an unvented gas space, *C.E. Henry, R.E. Henry, R.T. Lahey and S.G. Bankoff* 237
Two-phase flow in small-scale ribbed and finned passages for compact evaporators and condensers, *V.P. Carey* 249
Equations of state and spinodal lines – a review, *N. Shamsundar and J.H. Lienhard* 269
Diffusion layer modeling for condensation in vertical tubes with noncondensable gases, *T. Kageyama, P.F. Peterson and V.E. Schrock* 289
Computer simulation of two-phase flow in nuclear reactors, *W. Wulff* 303
The use of fluorescence in the measurement of local liquid content in transient multiphase flows, *H. Yan, W.W. Yuen and T.G. Theofanous* 315
The concept of polarization in dispersed two-phase potential flow, *G.B. Wallis* 329
Flow visualization of two-phase flows using photochromic dye activation method, *M. Kawaji, W. Ahmad, J.M. DeJesus, B. Sutharshan, C. Lorencez and M. Ojha* 343

Instructions to contributors 357

CONTENTS OF ISSUE 141(3)

Engineering Mechanics, Structures and Materials

Behaviour of nonlinear supports on a PWR coolant system during a postulated LOCA. Part 1: Effect of modelling methods, *H.W. Ng and B.V. Day* 361
Behaviour of nonlinear supports on a PWR coolant system during a postulated LOCA. Part 2: Effects of stiffness variations and cavity pressurisation, *H.W. Ng and B.V. Day* 375
Verification of the local structural response of building structures in the anchorage areas of heavy components, *N.J. Krutzik and R. Tropp* 385
Fracture mechanical properties and neutron irradiation effects of fuel compacts for the HTTR, *S. Sato, A. Kurumada, K. Kawamata, N. Suzuki, M. Kaneko and K. Fukuda* 395

Thermal-Hydraulics and Related Safety

Application of Relap5/Mod3 to the evaluation of loss of feedwater in test facilities and in nuclear plants, *F. D'Auria, N. Debrecin, G.M. Galassi and S. Galeazzi* 409
Condensation in the presence of noncondensable gases, *I.K. Huhtiniemi and M.L. Corradini* 429

Announcement

5th Symposium on Current Issues Related to Nuclear Power Plant Structures, Equipment and Piping 447

Contents of Vol. 141 449

Author index to Vol. 141 451

Subject index to Vol. 141 453
